Subject Request for extension of time to respond to 104(e) request.

Dear Ms. Deb Yamamoto,

I am writing you on behalf of McCall Oil and Chemical Corporation, GWC Front, LLC, MOREC, LLC and Tanker Basin, LLC. These entities are located at 5480-5724 N.W. Front Avenue, Portland, OR 97210. Previously EPA granted an extension of time to respond to the CIRCLA 104-(e) information request. Until August 18th, 2008.

After spending approximately 200 hours searching for and reviewing documents, and preparing responses to the request, we realize that we cannot complete the response by August 18th, 2008. The complexity of the above mentioned entities archives and the large volume of documents that we have had to review has consumed tremendous amounts of time. Summer time vacations have also complicated the process.

McCall believes it has answered about 75% of the questions from the 104-(e) request. In order for McCall to fully and accurately complete the response we would like to request a final extension of the deadline until November 1st, 2008.

We appreciate your consideration of our request. Please respond to me via email on your approval of the extension request.

Sincerely,

Edgar S. (Ted) McCall  
Vice President, Risk and Environmental Affairs
